KRAZY HAT Competition Suggestions

Krazy Hat competitions can generate an enormous amount of FUN for any gathering, be it Chapter, District, Region or even Wing Ding! There are also no hard and fast rules for conducting a Krazy Hat competition...we just encourage you to GO FOR IT and have FUN in the process.

How you do a Krazy Hat competition will depend on your venue, available space, participants, and audience. Likewise, there are a number of ways that you can determine your winner. Here are a couple of ideas:

- If you have the space available, arrange the Krazy Hats on tables, with bags or small containers for collecting tickets. Your event participants are given tickets and invited to drop a ticket into the bag or container adjacent to their favorite Krazy Hat. The bag or container collecting the most tickets is the winner!
- If you want to be more “formal”, you can create a judging form and assign non-partial judges to evaluate and score the Krazy Hats. Since judging criteria can be very subjective, have several judges for the task! Also, make your scoring criteria very general, including things like how well the Krazy Hat depicts the theme of the rally or event; creativity and originality of the Krazy Hat; sense of humor (tasteful, of course); or overall appeal, just to name a few.
- Bring the contestants up on stage to model their Krazy Hats in front of an audience. Allow them to “strut their stuff” for everyone. After each contestant has had the opportunity to present their Krazy Hat on stage, bring all of the contestants up on stage and one by one ask for audience applause to help in determining the winner. If you have a large number of entries, this may have to be done in stages.

Let your creativity and imagination soar, and allow your contestants to do the same! Then kick back and enjoy the squeals of laughter as your Krazy Hat contest creates “Friends for FUN”!
